INDEX

NAMES OF CONTRIBUTORS ARE PRINTED IN SMALL CAPITALS

Action of X-Rays at Low Temperatures on Gametes of Drosophila, E. NOVITSKI, 185
Activation of Eggs, Fertilization and Early Development as Affected by Ultraviolet Rays, A. C. GIESE, 165

BERG, W. E., Some Effects of Sperm Extracts on Eggs of Mytilus, 221
BERGMAN, G. J., Importance of Plasmolysis and Osmotic Pressure in Making Natural Mounts of Spirogyra and Cladophora, 31

CHAMBERS, E. L., and R. CHAMBERS, Ion Exchanges and Fertilization in Echinoderm Eggs, 269
CHAMBERS, R., and E. L. CHAMBERS, Ion Exchanges and Fertilization in Echinoderm Eggs, 269
Chromosomes, Foreign Proteins and Viruses, On Correlation of Phenomena Associated with, J. L. KAVANAU, 95, 113
Coat Color in Ranch-Bred Mink, Six Mutations Affecting, R. M. SHACKELFORD, 49

Differential Precocity at Meiosis in Drosophila, P. C. KOLLER, 153
Drosophila, Differential Precocity at Meiosis in, P. C. KOLLER, 153; Action of X-Rays at Low Temperatures on Gametes of, E. NOVITSKI, 185

Echinoderm Eggs, Ion Exchanges and Fertilization in, E. L. CHAMBERS and R. CHAMBERS, 269
Eggs of Sea Urchin, Relation of Ions to Appearance and Persistence of Fertilization and Hyaline Membranes in, A. R. MOORE, 233

Gametes of Drosophila, Action of X-Rays at Low Temperatures on, E. NOVITSKI, 185
GATES, G. E., Miscellanea Megadrilogica, 139
GEORGIANA, SISTER M., F.S.P.A., Longevity of Parasitic Wasp, Habrobracon Juglandis Ashmead, 39
GIESE, A. C., Activation of Eggs, Fertilization and Early Development as Affected by Ultraviolet Rays, 165

HINTON, T., Modification of Expression of a Position Effect, 69

Ion Exchanges and Fertilization in Echinoderm Eggs, E. L. CHAMBERS and R. CHAMBERS, 269
Ions, Relation of, to Appearance and Persistence of Fertilization and Hyaline Membranes in Eggs of Sea Urchin, A. R. MOORE, 233

KAVANAU, J. L., On Correlation of Phenomena Associated with Chromosomes, Foreign Proteins and Viruses, 95, 113

KOLLER, P. C., Differential Precocity at Meiosis in Drosophila, 153

Longevity of Parasitic Wasp, Habrobracon Juglandis Ashmead, SISTER M. GEORGIANA, F.S.P.A., 39

Marine Animals, Properties of Fertilizin and Related Substances of Eggs and Sperm of, A. TYLER, 195
MARKERT, C. L., Sexuality in Fungus, Glomerella, 227
Metabolism of Sea Urchin Sperm, J. D. SPIKES, 285
Miscellanea Megadrilogica, G. E. GATES, 139
Mitosis, Oxygen Consumption During; Experiments on Fertilized Eggs of Marine Animals, E. ZEUTHEN, 303
Modification of Expression of a Position Effect, T. HINTON, 69
MOORE, A. R., Relation of Ions to Appearance and Persistence of Fertilization and Hyaline Membranes in Eggs of Sea Urchin, 233
Mutation, Spontaneous, at R Locus in Maize. III. Genetic Modification of Mutation Rate, L. J. STADLER, 5
Mytilus, Some Effects of Sperm Extracts on Eggs of, W. E. BERG, 221

NOVITSKI, E., Action of X-Rays at Low Temperatures on Gametes of Drosophila, 185

Oxygen Consumption During Mitosis; Experiments on Fertilized Eggs of Marine Animals, E. ZEUTHEN, 303

Phosphorus Compounds of Sea Urchin Eggs and Uptake of Radio-Phosphate upon Fertilization, A. H. WHITELEY, 249
Plasmolysis and Osmotic Pressure, Importance of, in Making Natural Mounts of Spirogyra and Cladophora, G. J. BERGMAN, 31
Position Effect, Modification of Expression of a, T. HINTON, 69
Problems of General and Cellular Physiology Relating to Fertilization, Conference on, 165, 221, 269
Properties of Fertilizin and Related Substances of Eggs and Sperm of Marine Animals, A. TYLER, 195

Sea Urchin, Eggs of, Relation of Ions to Appearance and Persistence of Fertilization and Hyaline Membranes in, A. R. MOORE, 233; Sperm, Metabolism of, J. D. SPIKES, 285
Sexuality in Fungus, Glomerella, C. L. MARKERT, 227
SHACKELFORD, R. M., Six Mutations Affecting Coat Color in Ranch-Bred Mink, 49
Sperm Extracts on Eggs of Mytilus, Some Effects of, W. E. BERG, 221
SPIKES, J. D., Metabolism of Sea Urchin Sperm, 285
Spirogyra and Cladophora, Importance of Plasmolysis and Osmotic Pressure in Making Natural Mounts of, G. J. BERGMAN, 31
STADLER, L. J., Spontaneous Mutation at R Locus in Maize. III. Genetic Modification of Mutation Rate, 5

TYLER, A., Properties of Fertilizin and Related Substances of Eggs and Sperm of Marine Animals, 195

Wasp, Habrobracon Juglandis Ashmead, Longevity of Parasitic, SISTER M. GEORGIANA, F.S.P.A., 39
WHITELEY, A. H., Phosphorus Compounds of Sea Urchin Eggs and Uptake of Radio-Phosphate upon Fertilization, 249

X-Rays, Action of, at Low Temperatures on Gametes of Drosophila, E. NOVITSKI, 185

ZEUTHEN, E., Oxygen Consumption During Mitosis; Experiments on Fertilized Eggs of Marine Animals, 303
